About Me

Are you looking for a WordPress developer who can handle your project smoothly, ease your worries, and be there when you need assistance? Look no further—you've found the right place. As a WordPress developer, I stay updated with the latest web development practices and incorporate new technologies. I value continuous learning, reliability, meeting deadlines, and ensuring customer satisfaction.

Education

- Bangladesh University of Professionals (BUP)

Master of Science (MS)

Computer science

Year

2018-2019

- Govt Azizul Haque College, Bogra

Bachelor of Science (BS)

Computer science

Year

2014-2018

Experience

- B2B Lead Zone June 2021 - January 2024

Web Developer

This company employed me as a WordPress designer. During this period, I have developed WordPress Websites, customized themes, and plugins, and converted designs into WordPress websites using different builders like Elementor, Divi, wpBakery Oxygen, and many others.

- Greentech Pen IT Institute January 2020 - June 2021

Web Designer

• Develop interactive websites using WordPress CMS. • Develop new plugins/bug fixing/add new features. Fix responsive issues within the site. • Customize WordPress premium theme & plugins. • Convert PSD/Figma/XD design to an interactive WordPress website. • Troubleshooting, maintaining, and updating existing websites. Page speed optimization.

- Dikency April 2019 - January 2020

WordPress Designer

• Designing, implementing, and managing websites using WordPress's most popular builders, Elementor, Divi, Beaver, Thrive Builder, etc. • Managing both front-end and back-end website development • Troubleshoot and resolve website problems for clients and co-workers
